Fight for the Wine Trade

The greatest fight for trade terri-
tory in which the winemakers of
California have been engaged in all
the years of the wine industry in
this state is about to begin. The
circular issued by the California
Wine Association and a similar cir-
cular emanating from the Asti vine-
yard management, may be consid-
ered to have set the pace at which
the conflict will open. Ordinary
red wines will be 30 per cent. of
the price of standard wines. This
fact has previously been mentioned,
but repetition is necessary fully to
illustrate the situation in the light
of recent developments.

The trade war will open in New
Orleans. Immediately after the
great fire in San Francisco, when
the consumption of California wines
made a shortage in the market sup-
plies and California prices were
raised, the "brick vineyard" men
of the east saw their opening and
sent 2,600 barrels of so-called
"wine" into the City on the Gulf
in a period of about a fortnight.
A circular letter was sent out to the
purchasers of wine by the Stonehill
Wine Company, of Hermann, Mo.,
in which the statement was made
that the company was "Making a
bid for New York business." Of-
fers were made to supply Burgundy,
Reisling, Hock and Zinfandel wines
produced in Missouri. It is well
known that the vinifera from which
these wines are supposed to be
cannot be successfully grown east of
the Rocky mountains. Hence the
conclusion was forced upon the
handlers of California wines that
the offerings were open to question.
Added resentment against those who
were striving to get the eastern
markets from California was notic-
able.

Now the California wine men
have several trump cards to play.
The first is the food and drug law
that will go into effect on January
1, 1907. The provisions of that law
compel manufacturers to describe
and enumerate the ingredients that
a contained in goods. By this
the purchaser will be able to see at
a glance whether he is buying wine
or some imitation. The "brick
vineyard" men will be forced to
show down what they have. Cali-
fornia wine interests, being inter-
ested in marketing the juice of
grape, will be in better position the
more the home product is investi-
gated.

The coming struggle will repre-
sent millions of dollars in this state.

Napa St. above the post office.
Bruening's bread and pastry ex-
cell in quality and the meals he
serves at all hours satisfy the
most fastidious.

Duck Shooting Poor

During the past three or four
weeks duck shooting on the local
marshes has been very poor and
who can wonder at it when the on-
slaught on the feathered tribe which
has been constant since the opening
of the season is taken into consid-
eration? Matters not how tame or
foolish wild duck may be at the
opening of the shooting season, it
will learn and quickly, too, the dan-
ger points along in a marsh after it
has been shot at a few times. Local
birds that escaped chased shot dur-
ing the past month are not in evi-
dence now in the marshes. Contig-
uous to the bay and marshes they
have taken wings to is altogether a
matter of speculation. Doubtless
they are enjoying quiet solitude on
some of the many overflows caused
by the breaking of the river levees
last spring. The storm that visited
this coast a week ago drove large
flocks of ducks into the country to
seek shelter. Sportsmen who have
a penchant for duck shooting are
now anxiously waiting for the north-
ern flight which is due here at any
time.

A. Y. P. Exposition Notes

The Alaska Yukon-Pacific exposi-
tion will cover 250 acres.
The Alaska-Yukon-Pacific expo-
sition will cost approximately 10-
000,000 when the gates are opened
in 1909.

The management of the Alaska-
Yukon-Pacific exposition has ap-
propriated \$100,000 for a live stock
show.

Many national conventions will
be held at the Alaska-Yukon-Pac-
ific exposition in 1909.

Eleven large exhibit palaces will
form the main picture of the expo-
sition.

One of the main objects of the
Alaska-Yukon-Pacific exposition is
to make known and foster the vast
trade of the Pacific ocean.

The Alaska-Yukon-Pacific expo-
sition will open June 1 and close Oc-
tober 15, 1909.

An intra-mural railway will be
provided for the comfort and con-
venience of visitors to the expo-
sition. It will be two miles long.

Henry E. Reed, director of ex-
ploitation, of the Alaska-Yukon-
Pacific exposition, is now carrying
on a campaign to secure state par-
ticipation. Advances already receiv-
ed assure the representation of
many states.

It is estimated that 7,500,000
persons live in the section of coun-
try in the United States and Cana-
da within a radius of one thousand
miles of Seattle, who are directly
interested in making the Alaska-
Yukon-Pacific exposition the true
exponent of their material wealth
and development.

Major T. S. Clarkson, special
commissioner for the Alaska-Yu-
kon-Pacific exposition, who is visit-
ing the different states in the inter-
ests of the fair, is an experienced
exposition man. He was director-
general of the Omaha fair and was
prominently identified with the ex-
positions held at Buffalo, St. Louis
and Portland.

The association of Traveling
Passenger Agents will hold its 1908
meeting at Seattle. This will give
agents an excellent idea of the
Alaska-Yukon-Pacific exposition,
so that they can work intelligently
for business to the coast in 1909.

FRIDAY NOVEMBER 30, 1906

IS PRICE INELIGIBLE?

We have heard rumors of late that our newly elected senator, Walter F. Price, is ineligible to serve as state senator for this district, to which office he was chosen at the last election. It is contended by some who claim to know that inasmuch as he holds a federal position, Deputy Collector of Internal Revenue, carrying a salary greater than \$500 per annum, that the law forbids his holding any state or county office. It said that Mr. Price wishes to hold both positions.

The law governing the case in point is based upon the broad principle that government of State and Nation must be kept separate, and numerous instances have arisen where it has been interposed. The law has been upheld by the Supreme Court of this and other states, and, it is claimed, at least two such decisions found in the California records are exactly in line with the present case. If a contest is made, the Senate itself would first pass upon the matter; and in the event of Mr. Price being refused his seat, the Governor could allow the position to remain vacant until the next regular session.

Assistant District Attorney

District Attorney-elect Clarence F. Lea has appointed Attorney George F. Hoyle, the well-known Cloverdale lawyer, as assistant district attorney of Sonoma county. Mr. Hoyle has many friends all over the county and his appointment will doubtless afford them much pleasure. Mr. Hoyle has been practicing law at Cloverdale for a dozen years, and he is recognized as thoroughly competent to fill the office to which he has been appointed.

Will Resume Work

Work which has been suspended since the April disaster on the extension of the Petaluma & Santa Rosa railroad from Petaluma to the bay is to be resumed next week according to advices from San Rafael. The bay terminus will be located between Belvedere and Tiburon, so that its boats will have as short a distance to cover as possible between the depot and San Francisco. It has secured the rights of way for a continuous route to Napa as well as Santa Rosa. The line will start from Richardson's bay and run along the bay shore as far as McNear's Point, whence it will run direct to Petaluma, thence to Santa Rosa and Napa.

The Bay Counties Company recently purchased 1000 acres of marsh land costing over \$100,000, facing Richardson's bay, for round houses and shops.

The electric road from the county seat north to Healdsburg and through the Dry Creek Valley to Geyserville will in all probability also soon be again taken up.

Interesting Experiments

Prof. George C. Husmann, of Washington, D. C. who has charge of the viticultural work in the Department of Agriculture, is visiting the several experimental stations in this State, and in company with Hans Hansen, superintendent of To-Kalon, was in St. Helena says the Star.

Prof. Husmann is full of enthusiasm regarding the excellent showing being made by cuttings and vines in the stations, and is particularly gratified by the experiments being made at Oakville.

For the past two weeks Mr. Husmann and an assistant have been at the experimental station at Oakville making investigations. Acid and saccharine tests have been made of the grapes found on many varieties. Photographs of a dozen or more of the varieties of vines were taken to be used by Professor Husmann upon his return to Washington in bulletins which he will issue giving the result of his observations.

The department is gathering vines from other countries and planting them for grafts in the stations. These experiments are carefully watched and the value of the vines thoroughly tested before they are distributed among vineyardists. This is done so as to avoid the mistakes that were unadvisedly made when resistant vines were first brought into use.

At the Oakville station there are two hundred and eleven varieties that will be in bearing next vintage. It will be exceedingly interesting for vineyardists to visit this station next year and make note of the relative fruitage value of the vines which are side by side and are being so carefully watched. In all there are three hundred resistant and direct-producing vines at the Oakville station.

At Chico, Professor Husmann has been successful in having twelve of the ninety acres in the Government Plant Gardens set aside for vineyard work and here tests of wine and raisin vines will be carried on extensively.

At Oakville the wine varieties will alone receive attention and Prof. Husmann is very anxious for vineyardists to become familiar with the work being carried on there. Mr. Hansen will make all comers welcome and take pleasure in explaining the work being carried on there.

W. O. W. ELECTION

At the regular meeting of Bear Flag Camp No. 758, Woodmen of the World, held last Monday evening the following officers were elected to serve for the ensuing year: Past Council Commander, R. J. Dowdall; Con. Com., T. H. Baines; Adv. Lieut., R. L. Watt; Banker, W. Werner; Clerk, L. H. Green; Escort, Chas. Newman; Watchman, W. J. Clements; Sentry, E. E. Harris; Manager, F. Helberg; Physician, Dr. A. M. Thomson.

Thanksgiving Ball

As usual the annual Thanksgiving Eve Ball given by Sonoma Valley Council, Y. M. I., was a decided success and heartily enjoyed by the crowd who attended. Union Hall was tastefully decorated for the occasion. The Pauli orchestra furnished highly satisfactory music.

Lost Girl Located

Mary Farnocchia, he fourteen year old Glen Ellen girl, who ran away from home many weeks ago, has at last been located. She is in Indianapolis, Ind.

Her father, F. Farnocchia, who has returned from a trip to Sacramento cares nothing for the \$200 of his money she took when she went away. He cares nothing for the coin it will take when he goes East to try to persuade her to return home. He and her mother have spent many wakeful nights since she went away wondering if harm had come to her.

It seems that the girl, being aware that her Indianapolis acquaintances would sooner or later notify her parents, owing to a newspaper story having reached the Hoosier city, wrote to friends in Stockton, saying she was living in Indianapolis under the name of Emma Anderson. She claimed she was entirely alone and intended to make her living there without interruption, refusing to return to her California home.

Will Soon Begin Work

J. H. Brackett will shortly begin the work of demolishing the wrecked court house that there may be no delay encountered when the work of constructing the new building is ready. He expects to put on a number of men and teams and complete the work of tearing down and removing the debris in three months, weather permitting. He is not under estimating the great amount of material in the building and expects to make a substantial sum out of the contract. He is to receive \$1,250 from county and is entitled to all the material he saves from the old structure.—Republican.

To Take Over

Local Railroad

The important deal that involves the taking over of the San Francisco Northern-western railway by the Southern Pacific and the Santa Fe was completed Friday last when articles of incorporation of the North-western Pacific was taken out in San Francisco. It is the purpose of the two big roads to immediately complete the connecting link between Willits and Camp Five that will enable passengers to travel direct by rail from San Francisco to Eureka.

The North-western Pacific railway is incorporated for \$1,000,000. Of this amount E. E. Calvin, general manager of the Southern Pacific, and Captain A. H. Payson, assistant to the president of the Santa Fe each have \$480,000, while Wm. F. Herrin, chief counsel of the Southern Pacific, and E. S. Pillsbury, attorney for the Santa Fe, each have \$100,000, and I. W. Hellman, Jr, a like block of stock.

The two big railroads have been planning the move that was taken for a long time. It has been the scheme of both Harriman and Ripley to take over the two smaller roads, incorporate them under a new name and build the connecting link between Willits and Camp Five, the present terminus of the San Francisco Northwestern.—Republican.

Will Take up Road Matter

At the last meeting of the Glen Ellen Grange it was decided to take up the O'Donnell road matter and put things in shape for the acceptance of the road by the Supervisors. A committee was named, composed of N. S. Trowbridge, Andrew Erickson and Mrs. Jesse T. Haskill to arrange the details.

FACE TO FACE.

A New Problem For Women.

In the looking-glass a woman often sees wrinkles, hollow circles under the eyes, crow's feet—all because she did not turn to the right remedy when worn down with those troubles which are distinctly feminine. Backache, lassitude, nervousness and the pains and drains of womanhood bring such untold suffering that face is sure to show it.

Every woman, young or old, is well protected from the blues, nervousness, backache, and the many symptoms of disease so prevalent among our women—if they will conscientiously take Doctor Pierce's Favorite Prescription, a safe and sure remedy for the ills of womanhood, because it contains not a particle of alcohol, digitalis or any deleterious drugs. Weak women are made strong and sick women are made well by this splendid prescription which was used by Doctor Pierce in his large private practice in the capacity of women's diseases. Every woman troubled in this way should write him about her case, care of Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Many times women call on their family physicians, suffering as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and

there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he assuming them to be such, prescribes his pills and potions. In reality they are only symptoms caused by some womb disease. The physician ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause, would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said that "a disease known is half cured." In cases almost innumerable, after all other medicines had failed to help and doctors had said there was no cure possible, the use of Dr. Pierce's Favorite Prescription, supplemented, when necessary, by the medical advice and counsel of Dr. Pierce, has resulted in a perfect and permanent cure.

THE SECRET OUT.

To refute the many false and malicious attacks, bogus formulas and other untruthful statements published concerning Dr. Pierce's Family Medicine, the Doctor has decided to publish all the ingredients entering into them and place the same on the wrapper inclosing each bottle. The exact working formula for making these medicines cost Dr. Pierce and his collaborating Chemists and Pharmacists many years of study and experiments, but as perfected they produce almost perfect pharmaceutical compounds, embodying all the active medicinal principles residing in the ingredients employed, and preserving them perfectly for any length of time and in any climate without the use of a drop of alcohol.

These are the Original Little Liver Pills, first put up over 20 years ago, by old Dr. R. V. Pierce. They're just what you need to take and best. They're tiny, sugar-coated, anti-bilious granules, a compound of refined and concentrated vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and bilious headaches, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. Permanently cured, too. By their mild and natural action, these little Pills gently lead the system into natural ways again. Their influence lasts.

In Training

Geo. Sullivan has arrived from
Eureka, and has opened his train-
ing quarters at the Armory in
Petaluma, as he is well known
there, and will enter into hard work
for his go with Jim Hornbuckle the
6th of next month.

Eddie Burnes also arrived from
San Francisco last night and he will
assist Jim in conditioning himself
for his bout. Mr. Burnes is a good
man with the gloves and has had
hundreds of ring battles so that
he is well qualified to train any
fighter, and will no doubt have Jim
in the best possible shape by the
night of the mill.

Preparations have been made to
accommodate a large crowd at
Jims quarters to-day and the place
will no doubt be filled to overflow-
ing as Jim has a large following
here and they will all want to see
his work for this mill, as Harry has
already fought Jim once he will no
doubt be able to put Sullivan on to
Jims style of fighting, but Jim is
one of the gamest of fighters and
if Sullivan does win from him, he
will know that there has been some
kind of a mill and a hurricane at
that.

The Cornelius Knowles match is
exciting considerable talk amongst
the fight fans, and a hard bout is
looked for.

Thanksgiving Day

The National holiday was ap-
propriately observed here yester-
day. Union services were held at
the Congregational Church yester-
day morning, Rev. C. C. Cragin
preaching a fitting and eloquent
sermon.

By agreement the merchants
closed their places of business at
10:30 in the morning for the rest of
the day.

Will Visit Germany

Mr. and Mrs. Herman Bayer of
Santa Rosa, will leave on December
1st, on an extended visit with the
former's people in the fatherland.
Mr. Bayer has not seen his aged
mother and brothers for thirty
years and is looking forward with
a great deal of pleasure to the visit.
Their many friends wish them bon
voyage and safe return.

Licenses Raised

Acting under the suggestion of
Secretary Bonaparte, the Vallejo
trustees have determined to limit
the number of saloons in Vallejo to
fifty, and to raise the license to \$100
per annum. The new arrangement
will also compel the closing of the
saloons between 1 and 6 a. m. It
is estimated that this will give the
municipality \$20,000 per year in
the future. Only \$9000 has been
collected per annum in the past,
from the liquor traffic.

The Vital Point

To consider when buying a
heater is the draft. Exhaustive
tests prove that the down-draft
as it is developed in the cele-
brated

WILSON
DOWN
DRAFT
HEATER

is the only form that insures
perfect combustion at a mini-
mum of fuel expense. Furnishes
twice the heat from half the
amount of fuel used, because all
gas generated is burned. In
other heaters it escapes into the
chimney.

Consider this fuel economy
in buying.

Trespassers

By C. B. LEWIS

Copyright, 1902, by E. C. Parcells

When Captain Ben Golden retired from the sea and bought a place on the Connecticut shore he made only casual inquiries as to who were his neighbors. As a matter of fact, he did not care. As he explained it:

"I am a man as attends to my own business and expect other folks to attend to theirs. I shall have a house-keeper and a servant and live very quietly. My nephew, George Lee, may come down from the city now and then to stay over Sunday, but that's all the company I shall have."

Two weeks later, in buying and taking possession of the property adjoining Captain Golden's on the west, the purchaser, who was a man of sixty and rather crusty, had said to those who sold to him:

"I don't care who lives around here. All I want of them is to mind their own business and let me mind mine. If I catch any of them trespassing on my land they won't do it a second time. I shall live here quietly, with my niece to manage the house."

There were no fences dividing the property, but for the first few weeks Captain Golden and Mr. Bingham, who was the man with the niece, were too busy to walk abroad much. They saw each other from a distance, but made no effort to get acquainted. One day they were tramping through the shrubbery near the dividing line and came face to face. Both were there for the same object. Each one of them had been thinking of putting up a line fence to shut the other out. There was some embarrassment for a moment, and then Captain Golden, being the more jovial of the two, called out:

"Good day, neighbor; glad to meet you."

"Good day, sir," replied the other as he drew himself up in an icy manner. "Being we are neighbors—"

"We are not neighbors, sir. You simply happen to live near me. That is no

continue to live."

Just as Jennie Gray had lived with her uncle long enough to know him, so the headstrong and fractious he was that if there had been any trouble, he had done his full share in provoking it. But she also felt it her duty to stand by him, right or wrong. More than that she also felt it her duty to trespass upon Captain Golden's land because trespassers had been forbidden.

The old sailor was also in an angry mood when he reached his house, but he did not explain matters to his house-keeper. He waited until his nephew came down from the city now and then to stay over Sunday, and then he told the story and added:

"George, I don't want no trouble with anybody, but if that old fossil drives me to the wall I shall drive him under ground. I said I'd build a fence, but I won't do it. He can build and pay for it if he wants to. I've warned him to keep off my land, and if he don't do it—"

the admiral could simply jot down a couple of words on a piece of paper and the job would belong to him. But a light twinkled in Admiral Phillip's eye as he said to the sailor with mock gravity:

"My lad, you are too modest. You record entries up to something better. I would prefer to secure for you a Democratic nomination for congress from a Tammany district or a consular appointment in the diplomatic service or an appointment as master of the blackboards to her majesty Queen Victoria. Any of these would be easier for me to secure than the jobs you have asked for, for I have absolutely no political influence whatever."

PURE BLOOD IS VITAL

Not everyone realizes the vital necessity of keeping the blood pure at all times. Impure blood not only causes various derangements and inability to perform one's work well, but gives a ready welcome to all germs of disease with which it comes in contact. It is the rankest extravagance to allow the human blood to remain in an impure or impoverished condition. "Our Standard Remedy" is the safest, purest and best blood purifier on the market to-day. It is a new remedy, a purely vegetable preparation composed of roots, barks and herbs, and contains no calomel or other injurious or metallic drug. 204 doses for \$1, with a written guarantee that your money will be refunded if you are not cured of all troubles caused directly or indirectly by bad blood. You can purchase this wonderful new remedy at Clew's. John McNeil, sole agent for Sonoma County, Ohm's Sulphur Springs, Sonoma.

PACIFIC COAST'S GREATEST NEWSPAPER
SAN FRANCISCO CHRONICLE
The Weekly Chronicle
The very best weekly newspaper published in the entire West.
\$1.50 a Year
Including postage to any part of the United States, Canada and Mexico. (Send for sample copy.)
It is best because, besides printing all the news of the world each week in an interesting way and fully illustrating every article, it has special departments devoted to AGRICULTURE, MINING, HOBBIES, LITERATURE, FASHIONS, POETRY, LIVESTOCK and SPORTS.
These are presided over by editors having a thorough knowledge of their specialties. The pages devoted to Agriculture, Horticulture, Poultry and Live Stock are well illustrated and filled with matter of the greatest interest to all engaged in these industries, every line being written by those who are in close touch with conditions prevailing on this coast.
Do you want the "Chronicle's" new black map of California and Nevada?
The San Francisco "Chronicle," at the expense of many thousands of dollars, has secured the exclusive control of the northern half of California for this new style map, which is valued at \$5. It cannot be purchased from any store, but is obtained solely and exclusively from the SAN FRANCISCO "CHRONICLE."
Among the many exclusive features of this new map, all the names of towns are in white on black enameled background. It shows the population, number of banks, designated county seats and Indian reservations by illustrations. In fact, it is the most complete map ever published.
On the reversible side it shows the map of the United States, the World, the Dominion of Canada, Philippine Islands, Panama, Hawaiian Islands, Alaska and many other exclusive features.
SEND \$2.00 AND GET THE MAP AND WEEKLY "CHRONICLE" FOR ONE YEAR. POSTAGE PREPAID ON MAP AND PAPER.
DAILY "CHRONICLE" and MAP, postage prepaid, only \$4.00 for six months.

\$8.50 PUNCTURE-PROOF TIRES ONLY \$4.80
Regular Price \$8.50 per pair. \$4.80 per pair. We will send you a Sample Pair for Only 4.80 (CASH WITH ORDER \$4.80) NO MORE TROUBLE FROM PUNCTURES.

Result of 15 years experience in tire making. No danger from THORNS, CACTUS, PINS, NAILS, TACKS or GLASS. Serious punctures, like intentional knife cuts, can be vulcanized like any other tire.

Two Hundred Thousand pairs now in actual use. Over Seventy-five Thousand pairs sold last year.

DESCRIPTION: Made in all sizes. It is lively and easily riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture-resisting qualities being given by several layers of thin, specially prepared fabric on the inside. That "rolling back" feeling which makes riding on thorns or soft roads is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all action. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them entirely satisfactory on examination.

We will allow a cash discount of 5 percent (thereby making the price \$4.55 per pair) if you send FULL CASH WITH ORDER, and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sanyon metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at OUR expense if for any reason they are not satisfactory on examination.

We are perfectly reliable and money sent to us is as safe as in a bank. Ask your Postmaster, Banker, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look new than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a small trial order at once, hence this remarkable tire offer.

COASTER-BRAKES, built-up wheels, saddles, pedals, ports and repairs, and everything in the bicycle line sold by us at half price.

Prices charged by dealers and repairmen. Write for our big BUNDEY catalogue.

DO NOT WAIT to buy a bicycle or a pair of tires from anyone until you know the new and wonderful tires we are making. It only costs a postal to learn everything. Write it NOW.
